

CICLO DE PALESTRAS

BIOMEDICAL SIGNAL AND IMAGE PROCESSING 2013

16

MARCH

Ana Castro, IT/FCUP, “How to measure pain in an unconscious patient”

Amphitheater 2, DCC Building - Faculty of Sciences University of Porto | 11h30

23

MARCH

Luís Rosado, Fraunhofer Portugal AICOS, “Mobile-based approaches for healthcare using image processing: the melanoma detection project”

Amphitheater 2, DCC Building - Faculty of Sciences University of Porto | 11h30

06

APRIL

Cristina Santos, FMUP, “Processing cardiocography signals”

Amphitheater 2, DCC Building - Faculty of Sciences University of Porto | 11h30

13

APRIL

Ali Moukadem, MIPS Lab / University of Haute Alsace, France, “Segmentation and classification of heart sounds”

Amphitheater 2, DCC Building - Faculty of Sciences University of Porto | 11h30

20

APRIL

Isabel Figueiredo, CMUC/UC, “Challenges on endoscopic image processing and biomathematics”

Amphitheater 2, DCC Building - Faculty of Sciences University of Porto | 11h30
